Incident	General		2022-07-04 12:26 PM		<p>INC-097760-22 INC 12 2022-07-04 11:00 outer harbor John Ryder Clear None Calm While on harbor patrol to enforce the no wake zone along the outer harbor mooring and anchorage file, I asked a Parker, MS 2065 BN to slow his vessel, as well as a second vessel. The operator of the Parker claimed that while I asked that he slow down, I was operating my vessel in an unsafe manor as he had to slow his vessel to avoid me, and I left my helm to speak with him and the other vessel. The operator identified himself as a Captain, and very aggressively and abusively told me off. He asserted that he was not in a no-wake zone, and that I had no right to slow him down. I contact the Harbor Master who asked that I get his reg #, which I did at the lagoon landing. Where again the operator was load and very abusive and aggressive,</p>

Fire Dept. also responded. Upon arrival, fire was extinguished by Tortuga's fire suppression system. Bilge was full of water and 20 gallons of hydraulic fluid. Harbormaster instructed vessel to contact Towboat U.S. Towboat U.S. arrived on scene and removed hydraulic fluid in a safe manner and dewatered the vessel. Vessel was subsequently towed to Newport, RI. -99</p>
Incident	Distress Vessel		2022-07-31 10:31 AM		<p>INC-101587-22 INC 7 2022-07-29 1:00 Lagoon Pond Colleen Wilson 4 Clear Moderate Chop While out on a patrol in the lagoon, the assistant harbormasters came upon a family of 4 paddleboarders, a husband, wife and two young children. They were struggling to get back to Wind's Up where they launched. Paddling against the wind, we made contact with them and said Wind's Up was launching a vessel to assist them. Meanwhile one of the paddleboards floated away and we ended up bringing it on board and taking it to the landing. A Wind's Up employee got the father and son on board their boat and retrieved the paddleboard from the pier thereafter. The mother and daughter ended up getting closer in to shore where they could stand up and get on shore safely.</p>

Contacted owner who responded immediately. Instructed owner to contact us if assistance was required. Having no response in a short period of time called owner back. Spoke with wife, husband forgot cell phone. We responded to the vessel. Ingress of water was stopped and water pumped out by owner. Vessel stabilized. Recommended to owner he haul out vessel ASAP.
Incident	Distress Vessel		2022-07-31 11:04 AM		INC-101602-22 INC 7 2022-07-04 14:00 Tashmoo JOHN CROCKER Clear Light Arrived on scene for patrol including anchorage. Found 4 vessels anchored in channel. Instructed 2 vessels to reposition. Found two 40' sailboats rafted together, no one on board, dragging anchor across channel. Called Nelson for assistance. Set up a line on one of the sailboats so Nelson could tie off to vessel & begin tow to anchorage. I hauled up the anchor & also towed vessels using anchor chain. Reset anchor in anchorage, made certain anchor was set & holding.
